Printout Measuring Guide:
this dotted line should be
about 1 inch tall

Cut a piece of straw 1" in
length

Cut out all around woodpecker shape
do not cut on dotted line.

Fold paper in half before cutting

After straw is cut and woodpecker is cutout, place the straw on inside of dotted line and tape it down. Use a glue stick and put glue on inside of woodpecker cut out – fold and stick together. Put a piece of string about 24" long through the straw. Hold string tight with both each hand and woodpecker will slide down the string and peck as it goes.
